Chairwoman Frost and Members of the Board of Supervisor

I'm Harold Fong and I live at 7499 Summerwind Way in District 2 represented by Supervisor Patrick Kennedy.

I'm writing about the supervisorial maps. Although I don't live in District 5 I have family members that do. Your decision on the district map for each district will affect all of us for the next 10 years.

Keeping communities of interest together is one of the important factors to consider in drawing the district map. I ask that you keep the communities of South Sacramento, Florin, or Vineyard together with the city of Elk Grove. They have more in common with each other than the proposed areas in one of the draft maps. It will not dilute their ability to elect or have an influence in voting for candidates that represent their interest.

I'm asking each of you to consider what is good for all of the neighborhoods and communities in Sacramento County and not just your individual district. Each of you may have to give a little for the good of all us who live in the county.

Respectfully,
Harold Fong
