Redistricting Map NDC #203 Evaluation & Support

Dear Commission Members,

Land Park Community Association supports **Redistricting Map #203** with three important points of consideration focusing on **the benefits of a common community of interest**:

1. The new District 1 representation would unify the Community of Interest of Land Park, Upper Land Park, South Land Park, Sierra-Curtis Park and Hollywood Park, acknowledging Greater Land Park (“The Parks”) as both a planning unit of the General Plan and as a political unit accountable for the plan implementation – thus, better assuring the outcome of “livability” as defined by the residents.
2. District 1 (to include Newton-Booth and Southside neighborhood) could address the future of our “Main Street” (the Broadway W/X corridor) with a common vision and single voice, meeting the challenges including; the Broadway Complete Streets renovation, Broadway intensified redevelopment, the W.Sacramento-Broadway bridge, and the Homeless Sheltering challenges.
3. District 1 would allow Greater Land Park to share responsibility for the management and future development of the City Center service core and transportation network, engaging a large number of our current and retired City and State workforce in residence.

We thank the Commissioners and Supervisors for their consideration and for the opportunity to comment. In addition, we thank both Supervisors Kennedy and Serna for their contributions to our city and community.

Respectfully,

Craig Rutledge, President
Land Park Community Association

Kirk Vyverberg, Planning Lead
2040 General Plan – Greater Land Park
