Hi, my name is Angelina Woodberry . I have lived in district 3 for 20 years. I would like to keep my community together.

My community consists of renters. Proud renters who may change apartment complexes but remain within district 3, primarily the west Arden Arcade area. We are hard working families with children.

My community is located: within Ethan Way to the West, Fulton Ave. to the East, Northgate to the South, and Auburn Blvd to the North.

My community is not similar to other neighborhoods. We are rather unique. We are extremely close to the City proper and on the far end of Arden Arcade/Carmichael area.

My community is different from the following neighborhoods: Sierra Oaks, Arden Manor, Arden Oaks

Community histories or issues that emphasize why it is important to keep my community together. Socioeconomic similarities tie this area together. There are more apartment renters in this area than homeowners. We are a designated resettlement area for the refugees and they have found a home here.

Please keep this area together.
